

THREE-PHASE OPERATING PLAN

While Cleburne County faculty and staff members are working diligently to get school “back to normal,” administration realizes that at certain times students may not be able to physically attend school based on area COVID data. For this reason, the Cleburne County School System would like to explain a three-phase plan for school during these unsettled times. Please understand that decisions determining what phase our schools are operating in will be based on state and local data. Our intent is to notify students/parents in a timely manner in order for families to make the necessary arrangements.

Phase One

TRADITIONAL STUDENTS

Traditional students will physically attend school as the original school calendar states – usually five days per week.

VIRTUAL STUDENTS

Virtual students will not attend school physically, but will complete required lessons online.

Phase Two

TRADITIONAL STUDENTS

Traditional students will physically attend school on Mondays, Tuesdays, and Thursdays. On Wednesdays and Fridays, traditional students will stay home and join classes virtually or with paper packets to allow for disinfecting school facilities and buses.

VIRTUAL STUDENTS

Virtual students will continue lessons online.

Phase Three

TRADITIONAL STUDENTS

All students will receive virtual lessons online or with paper packets. This may be a sustained period of time to allow for disinfecting and to allow for a decrease in area COVID cases.

VIRTUAL STUDENTS

Virtual students will continue lessons online.

PARENTS, STUDENTS, COMMUNITY

Cleburne County Schools would like to stress the importance of downloading our school app.

During the current times we will be sending important time sensitive information out to parents and community members that is not suitable to be delivered via a phone call. Having the app on your mobile device will allow us to get the information out to each of you with a push notification directly to your phone.

We will also continue to post these notifications to our district and schools social media pages.

DOWNLOAD THE APP!
