Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

* The LEA posted our Back to School In-Person Learning Plan in June encouraging parents and students to prepare to be in school five days a week. Cleburne County Schools has a nurse located in each building that has been trained to follow the latest CDC guidelines to keep staff and students safe and healthy. These nurses provide guidance, healthcare, and preventative instructions to students, parents and staff. All campuses and buses have been and will continue to be supplied with sanitation supplies as well as necessary PPE

The Mitigation of Learning Loss has been and will continue to be handled in the following manner:

- Offering after school intervention for students in grades K-3
- Purchasing Edgenuity for online usage to support virtual sents, summer learning, and as a supplemental academic resource in the general education classroom
- Purchasing Renaissance to support K-8 students in reading and math
- Offering summer enrichment camps for students in grades K-6 and summer school to students in grades 7-11

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

* Evidence- based interventions will be closely monitored to ensure academic progress and the reduction of learning loss with the purchase of the following programs: Classlink, Incident, Cyber Sophos, and Smart Deploy. The social, emotional, and mental health needs of all students will be supported through parent and family communication. Underrepresented student groups will be supported through the use of the Renaissance program, family communication, after school programs, and by providing technology needs such as Chromebooks and Mifi Hotspots for internet connectivity. ARI specialists are staffed at each elementary school to provide teachers and students with Alabama Reading Initiative strategies to support instruction and learning.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

* Regardless of a student's gender, race, color, national origin, disability, or age, all students have equal access to technology and may participate in all programs purchased through the use of ARP ESSER funds.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect

and manage data elements required to be reported, and report this information to the community?

* The LEA will actively monitor allocations and conduct interim audits through monthly financial statements (ES2's) and annual budget hearings. This information is reported to the community through the District's website.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

* ARP ESSER funds will be used to purchase family handouts and resources for our Back to School Nights in 2022 and 2023 as well as our Welcome Back to the Winter Semester for the 2021-22 school year. The resources will include activities and materials for families to complete in the home that will focus on the family's social emotional well-being and the academic areas of English Language Arts and Mathematics.

All funding and expenditures can be viewed on our District's website following the monthly meeting with Board Members and the Superintendent. The CSFO posts all financials on the website after balancing the monthly statements.

ARP ESSER State Reserve Allocation to Address Loss of Instructional Time

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

Required Narratives

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

* LEA will use Renaissance products including STAR 360 testing to find learning deficits for all students impacted by COVID-19. Students in the district are predominantly low-income based on the almost 75% free and reduced lunch qualifications. The LEA will also use Reading Horizons (a SBRR dyslexic specific program) and Cambium Learning products. Voyager Passport by Cambium includes Voyager Passport for reading and Voyager Math for math needs. The resources from Renaissance include Freckle ELA and Math that align to individual student test results and create individualized learning pathways. Because the learning pathways are based on test results of individual students, the learning needs of students can be met regardless of independent grade level. This allows teachers to support student learning on varying levels in the classroom

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

* Students in grades Kindergarten through Third grade are located through the testing and progress monitoring from STAR 360 products. In addition to using the test results and learning pathways, teachers meet with students individually to create Student Reading Improvement Plans as required by the ALSDE. For students in grades 4th - 8th, the same process takes place for testing and individual learning pathways. All teachers in all grade levels monitor progress and impact of the learning program.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* Students that have missed the most in-person instruction are diagnosed with the STAR 360 and intervention classes are in the schedule for each school at each grade level. Those students are determined through absentee records from the 2019-2020 and 2020-2021 school year. The current school year is in progress and students that are withdrawing to virtual learning are receiving the same course of action.
